

PROTECT YOUR EQUIPMENT WITH THE

RSHTM 50 VRM KIT

SURGE PROTECTOR AND VOLTAGE RANGE MONITOR

Protect Against High Voltage & Brown Outs

A power fluctuation can damage your heating and AC system, costing thousands to repair.

Your HVAC system is an investment to keep your family healthy and feeling comfortable all year long. Power surges, caused by lightning, the utility company, and internal events, can damage your HVAC system, costing you thousands to repair or replace.

How much of your heating & AC systems are at risk?

The average home has \$15,000* worth of equipment that is at risk of being damaged or destroyed by a power surge.

Some - BUT NOT ALL - homeowners insurance policies and HVAC equipment warranties cover damages caused by power surges. The cost to replace HVAC components can be as high as \$2,500.

*According to the National Electrical Manufacturers Association (nema.org)

Solutions to keep your heating & AC systems safe from power surges.

Reliable surge solution serves as inexpensive insurance for your heating & AC systems. With the instability of the national electrical grid, our low cost surge protection devices will keep your equipment up and running, avoiding heating & AC downtime.

Consult with an HVAC Professional Today to Surge Protect Your Equipment and Investment.
