ADA Compliant

Automatic

Sloan SF-2400 and SF-2450 Electronic Pedestal Hand Washing Faucets operate by means of an infrared sensor. When the user enters the sensor's effective range, the Solenoid activates the water flow. Tempered water flows from the Faucet until the user steps away. The Faucet then automatically shuts off.

Hygienic

The ultimate in sanitary protection — there are no handles to turn or buttons to push. Helps to control the spread of infectious diseases.

Economical

Automatic operation provides water usage savings over other faucet devices. Reduces maintenance and operation costs.

Warranty

1 year (limited)

Compliant to:

ASME A112.18.1
